There is much speculation as to the probable time of Admiral Dewey's arrival off Sandy Hook. In the opinion of many officers the Olympia will not be sighted first off Sandy Hook. Havara, Sept. 25 .- The election of dele gates to the municipal committees has taken place, the voting tables being well attended. In some instances there was charge of the tables and those coming actually snatching the cards from others who were about to vote against the canlidate of the former.

Juan Gualberto Gomez asserts that all kinds of political opinion are represented n the n.en chosen. Some favor Maximo Gon.ez, others support the members of the former military assembly, and others still desire to raise the race question.

"Nothing," he declares, "could be ex-pected of a definite character from people who had such difficulty in agreeing with respect to delegates in the first instance." Senor Pierra, commenting upon the election, said: "These elections are more an experiment than anything else. Their object is to train the people to vote. The municipal councils will proceed to elecprovinicial councils and the latter will choose the national council, a body which will be fairly representative. Then when the time comes for legal voting, our peo ple will have had some experience."

Cubans Annoying Spanish. A body of Cubans went to-day to the engine house of the Commercial Fire Brigade and demanded that the Spanish flag displayed there be lowered. The fire torted that the Cubans did not dare go to the Clerks' Club, opposite, and make a similar proposal.

The Cubans, however, secured a key leading to the roof of the clubhouse by threatening a porter, and hauled down Chief of Police Cardenas, on being ad-

vised of what had occurred, ordered the police to rehoist both flags. The Spanish consul general, Senor Sagrario, has lodged a protest on behalf of the club and the firemen, and the president of the club will take legal action against the rioters. At a memorial meeting held in connec ion with the exhumation of the remains of Antonio Maceo and Francisco Gomez

Juan Gualberto Gomez, after Gen. Sangully had sketched the life of Maceo, said:
"Had Maceo lived the present dissension "Had Maceo lived the present dissension that is rending the revolutionary party would not exist. SAMOAN WAR CLAIMS

Great Britain and the United States to Foot the Bill.

GERMANY PAYS NO SHARE OF IT

Negotiations Still in Progress as to Mede of Settling Losses Growing Out of the Depredations of the Natives Under Mataufa-Damage Done by Bombardment Found to Be Inconsiderable-Question of Death Claims Not Yet Taken Up.

The three governments interested in Samoa, Great Britain, Germany, and the United States, have been considering the claims arising out of the bombardment last summer, in which the American forces, under Admiral Kautz, and the British forces, under Capt. Sturdee, par-ticipated. As a preliminary step the British government has signified a puradopt in this case the principle observed in the damage done by the bombardment of Alexandria, Egypt, namely, that private property destroyed as a nec essary incident to the prosecution of naval and military operations would be paid

for. While applying this general princi-ple, the adjustment of the various claims is yet to be made according to the circumstances of each. The claims are being considered under wo main heads, viz., those arising from the joint naval operations of the British and the American forces, and, second, those growing out of the operations of the Samoan natives, chiefly the followers

of Mataafa. " Shells Cause Slight Damage.

Under the first head, caused by the British-American operations, are included the claims resulting from the actual bombardment, such as damage done by shells, and also those resulting from the demolition of buildings, and like incidental damage to private property, which at times became necessary as a means of checking the native uprising. The damage done by shells and projectiles has turned out to be comparatively small, and much the larger amount is for the incidental destruction and damage of houses and property as a precautionary measure.

The second class of claims, growing out of depredations by the Samoan natives, has been more difficult of adjustment. The officials have hesitated to impose a heavy money burden on the Samoans, and yet they have felt it essential that the Samoans should understand that they cannot cause wholesale damage to the property of the whites and then go free of obligation. Thus far it has not been possible to formulate even a general prin-ciple for considering this class of claims.

Germany Not to Be Mulcted. It is understood that the British and German authorities are agreed on the general principle that the bombardment Waging Guerrilla Warfare Against and naval claims should be reimbursed. This, however, it is asserted, imposes no obligation on Germany to share in meeting the claims, as the German forces lid not participate in the bombardment. It is said, also, that no proposition has been made to have Germany pay a part of the damage done by the Mataafa forces. The course of the United States has not yet been fully determined, either as to the bombardment or the claims arisas to the bombardment or the claims arising from native depredations.

So far as known, all the claims under
consideration are for property loss, there
being no present basis for estimating
claims for the loss of life among the Brit-

City of Mexico, Sept. 25 .- President Diaz

President Diaz expressed deep regret

While the illness of Mme. Diaz has all ong placed a degree of uncertainty about the plans of the President for his journey, it was hoped until today that her condition might improve sufficiently to allow President Diaz to be absent. So strong was this expectation that to-day the Senate again took up the matter of the proposed visit and increased the amount for the appropriation for the
